Adobe Creative Suite Access

The Adobe Creative suite is loaded on all Templeton lab and digital Learning lab computers. In order to access this software, a PTS user account is required. Once the application opens, a log in window will present asking for a username. Please provide your full PTS email account as your username. You should then be brought to a PTS branded login page to enter your password. Once enter and authorized the application will open. Please report any issues to the PTS Help Desk at help.desk@ptsem.edu

The Adobe Creative suite has a full compliment of tools that can be utilized for video editing, graphic creation, PDF editing and creation, print and flyer layout and photo editing.
