

PaperCut

PaperCut is the Seminary's new Print Management service. It is a centralized account based service, that automates setting up and accessing printers.

Once signed into PaperCut on your computer, you will automatically have all applicable printers installed and ready to use. You will also have access to a new virtual print queue, called 'PaperCut_Follow_You.' This queue will allow you to release your print job at any of our new Canon MFP's that have replaced our Ricoh units.

Use included articles to learn about our new print service, PaperCut!
