

PaperCut: Setup for macOS

Follow these steps to ensure you can successfully send print jobs to the 'Follow You' queue.

Print Deploy should be installed automatically via jamf. Upon initial run, it will ask you to sign in with your Active Directory username and password.

If you do not have the login window automatically open, follow these steps:

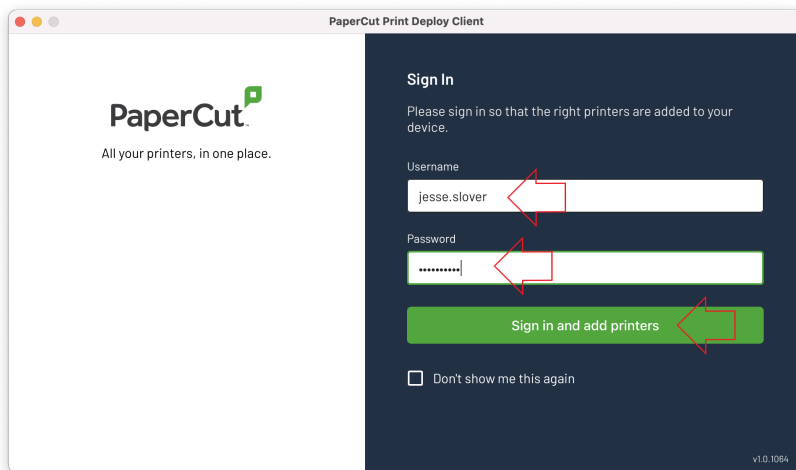

Click on the following icon in your Menu Bar

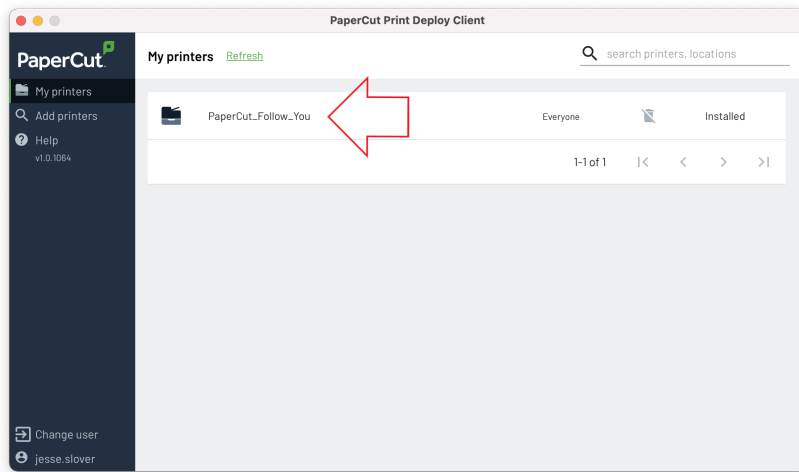

Click on the icon and click 'View my printers'

You'll be presented with a login window, enter your Active Directory username and password, then click 'Sign In'

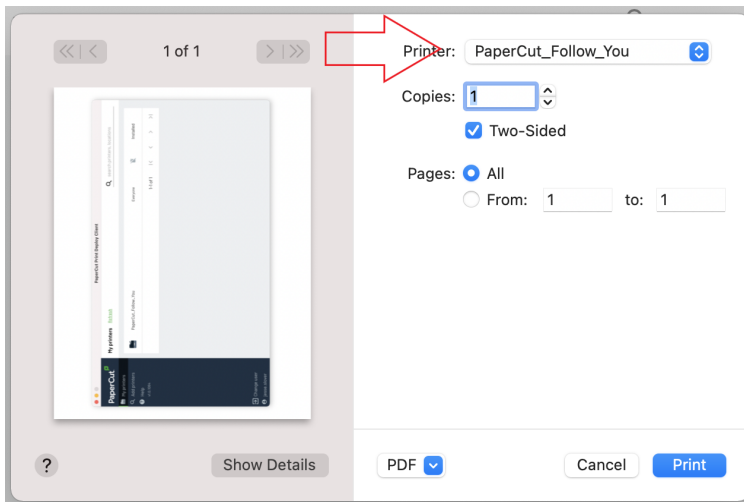

You should see 'PaperCut_Follow_You' as installed.

The following steps will show how to send print jobs to the Follow You queue.

When you go to print a document, make sure the 'Follow You' printer is selected, adjust any print setting, and press print.

And it's that simple. Click [here](#) to learn how to retrieve your print jobs from any PaperCut enabled printer!
